

CV Jean-Yves Coxam

Jean-Yves Coxam holds a PhD and habilitation to supervise research works (HDR)in Physical Chemistry from Blaise Pascal University. He developps projects in Thermodynamics and Molecular Interactions at the Institute of Chemistry of Clermont-Ferrand (ICCF). His work focuses on vapor-liquid equilibria , thermodynamic modeling and calorimetric measurements related to dissolution of gases in aqueous solutions of bases or electrolytes. He is author of about forty articles in refereed journals (J. Chem. Thermodynamics , Fluid Phase Equilibria , Journal of Solution Chemistry, Journal of Physical Chemistry B).
